

# MOZ Report for 534 Rent

April, 2016

My only concern with the image above is that MOZ hasn't been able to verify your Bing or Foursquare accounts yet, I have submitted a ticket with them and by next month this will be fixed. Once your Bing and Foursquare account have been verified and listed, your Searchability should increase.

You may have noticed that since the start you have gone from a **52% 'Findability'** to a **74%** that is a **22% increase!** We are working though the incomplete, inconsistent and duplicated info, to increase your findability even more!

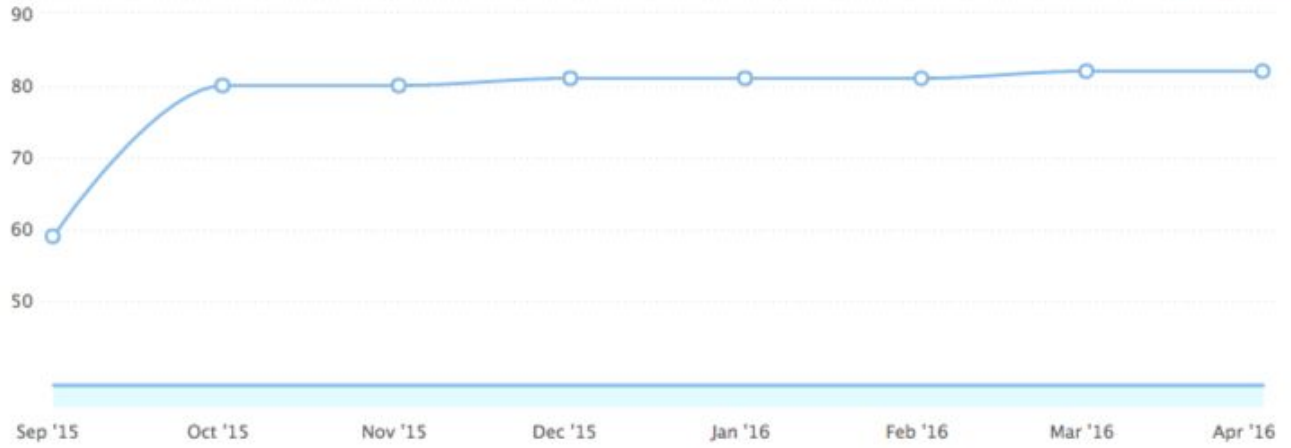

Average Score  
**82%**  
across 1 locations

Total Listing Reach  
**14**  
across 1 locations

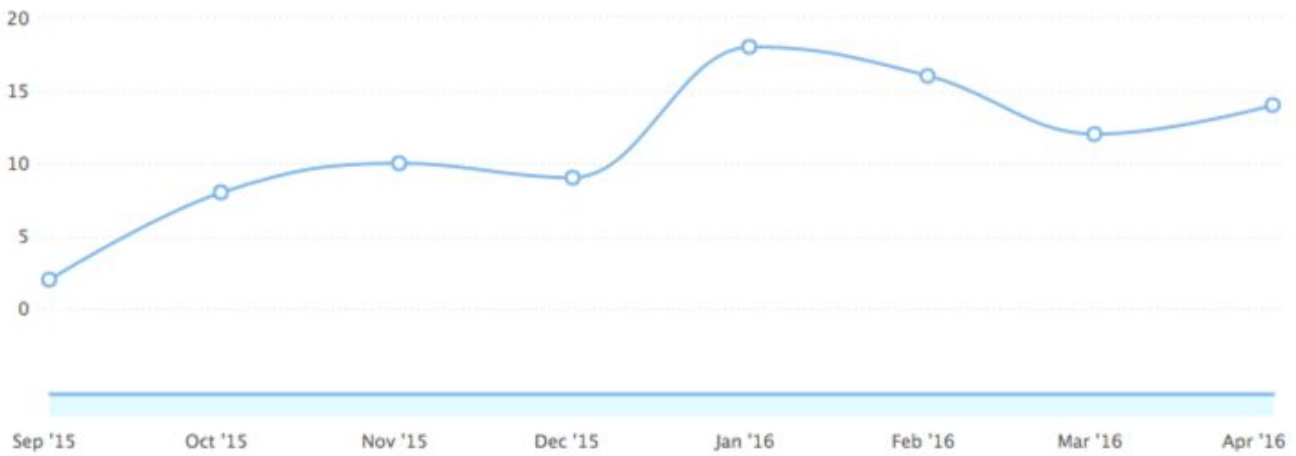

Accuracy  
**80%**
